## Welcome to 2fishgroup.com

2 Fish Group is a Wilmington, Delaware based graphic design, web design and marketing company that caters almost exclusively to the needs of small, independent businesses. We perform most tasks you'd expect from a marketing company, but our methods extend far beyond the traditional.

### Graphic & Web Design Services

First impressions are crucial, especially in this day and age. That's why we provide our clients with extraordinary graphic and web design services with meticulous attention to detail, helping improve their image and visibility in a marketplace increasingly dominated by national chains and franchises.

### Marketing & Advertising Solutions

We're firm believers in the power of numbers. Seeking ways to band local businesses together is key, rather than using the "every business for itself" mentality. This is achieved through the creation of marketing solutions and strategies such as merchant associations, online and printed directories, customer loyalty programs, and much more. What's more: we primarily utilize the power of the internet to help our clients achieve the success they desire.
